Presentation

Each original image is printed on an oversized sheet of Hahnemuhle Photo Rag Bright White 309 gsm archival quality paper.

Prints are attached to a 100% rag content backing board using a strip of 1" Tyvek tape along the top edge of the printed sheet (as shown). A window overmat is then hinged to the backing board using an additional strip of 1' Tyvek tape.

Tyvek tape is an inert and archival quality material that can be removed (without damaging either the print or mount board) in the event the overmat or backing board become soiled, or if a custom overmat is preferred.

Certificate of Authenticity and Provenance

Each print comes with a Certificate of Authenticity and Provenance. The Certificate is displayed at the bottom edge of the oversized printed sheet, as shown. (The certificate itself is not visible through the overmat window).

The Certificate of Authenticity contains a written description of the specific edition characteristics, together with the image title and file number, original image date, edition number, print number, and the month and year in which the specific print was produced. All work is completed exclusively by the photographer and each print is signed and numbered, in pencil, immediately beneath the image, itself.
